

Replacement UV lamps for Durst printers

Durst produces a varied line of high-end wide format and digital flatbed printers. The majority of the printers incorporate ultraviolet curing systems manufactured by Honle UV. Honle makes excellent UV systems of various sizes and spectral fills. TCS Technologies offers second source digital printing lamps designed for direct interchange into Durst printers. We provide an American manufactured alternative for Durst OEM lamps. Now more than ever buying American makes sense....dollars and cents!

We manufacture UV curing lamps for the following Durst printers:
