

Vzero 140H and 140D UV Inkjet Lamps

The Vzero 140H and 140D UV inkjet lamps are slightly longer with higher wattage than their cousins the Vzero 085A and 085D. The Vzero 140H and 140D differ by spectral-output. These lamps are typically used in Agfa Anapurna printers.

Today's shrinking margins mean running a lean business is no longer an option. As businesses have adapted to tightening economic conditions, terms lean manufacturing and lean business processes have become commonplace. TCS Technologies provides reliable substitute for Agfa Anapurna Vzero OEM lamp. This combined with our quartz plates certainly can help facilitate a stronger ROI.

You have placed a large investment in digital printing. We have helped numerous manufacturing and printing companies to better manage their technology investment. Let us help attain your goals of success and growth with cost-effective Vzero replacement digital printing lamps.
