

## A36748N UV Inkjet Lamps

Used in Teckwin TeckStorm printer, UV curing lamp A36748N offers high UV output in a compact offering.

Lamp requires one pay close attention to cooling air as we have seen several OEM lamps with burned lamp leads. Our lamp incorporates a high temperature wire sleeve to mitigate this condition.

Compare curing performance, price and warranty; you will see why TCS Technologies' A36748N lamp compares favorably to the Teckwin OEM offering.

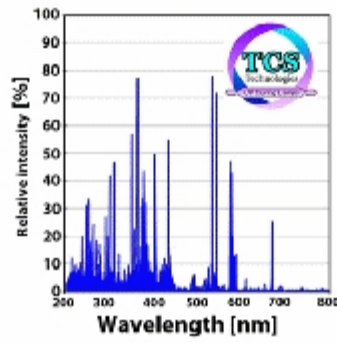

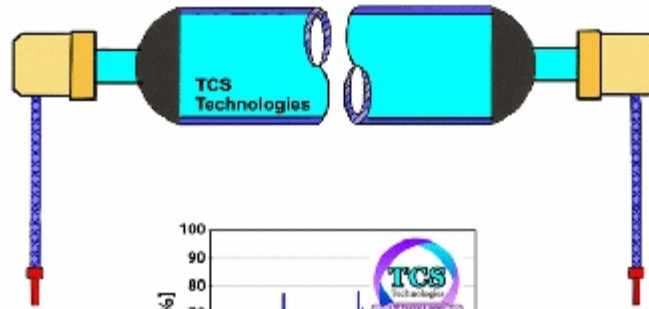

- Our lamp is directly interchangeable with OEM product
- Our lamp is fabricated from the finest USA quartz and components
- Our lamp operates the same power level as OEM product
  - Our lamp cures at the same rate
  - Our lamp costs less

Purchasing a lamp from the OEM does not guarantee you get a better quality part. TCS Technologies provides an equivalent UV bulb at a fraction of the cost.

Since 1979, we have manufactured quality UV curing lamps right here in the USA. No order is too small and we ship worldwide. Our lamps are reliable and backed by 32-years of lamp-making excellence.
