

# 106182 rev 1 UV Inkjet Lamps

Another high performance lamp designed for EFI Rastek, Raster 720UVZ (RP720UVZ) printer.

Our design is unique in the industry combining increased plasma temperature for superior UV output with unique halogen process reducing lamp blackening. This results in consistent UV performance throughout the life of the lamp.

We suspect the printer is no longer manufactured however the replacement lamp lives on at TCS Technologies.

Since 1979, we have manufactured quality UV curing lamps right here in the USA. No order is too small and we ship worldwide. Our lamps are reliable and backed by 32-years of lamp-making excellence
