

F1-180UV UV Inkjet Lamps

Compared to standard Chinese lamp shipped with machine, our F1-180UV lamp provides increased UV (UVA) output. It is designed for use in Toshiba and Flora printers. Our design offers higher UV output and predictable life.

Compare curing performance, price and warranty; you will see why TCS Technologies' F1-180UV lamp compares favorably to the Toshiba and Flora OEM offerings.

- Our lamp is directly interchangeable with OEM product
- Our lamp is fabricated from the finest USA quartz and components
 - Our lamp operates the same power level as OEM product
 - Our lamp cures at the same rate
 - Our lamp costs less

You have placed a large investment in digital printing. Let TCS Technologies help attain your goals of success and growth with cost-effective Toshiba and Flora replacement digital printing lamps.

Since 1979, we have manufactured quality UV curing lamps right here in the USA. No order is too small and we ship worldwide. Our lamps are reliable and backed by 32-years of lamp-making excellence.
