

## UV Curing Lamps For VTI Ideal Quartz

VTI UV systems are manufactured under the name Ideal Quartz. Their main focus is in the web label curing area; however we have seen some VTI conveyor applications. Many of VTI's lamps are lead additive.

TCS Technologies provides UV curing lamps for virtually all VTI curing systems. Over the years we have built a reputation for delivering performance, dependability and value. **Here is a partial list of VTI replacement lamps we manufacture:**
