

UV Curing Lamps For Ko-Pack

There are many spellings of Ko-Pack including Kopack and Kopak. Frankly we not sure which one is correct. We believe the correct spelling to be Ko-Pack International. Regardless, they have been building rotary presses for the labeling and packaging industry for many years. The press we are most familiar with is the Ko-Pack 250. This press uses 2-types of lamps, main-cure and rapid cure.

TCS Technologies manufactures several types of replacement lamps for Ko-Pack UV curing systems. **Lamps include:**

UVL2000	UVL2400	UVL5000
UVL2000RS	UVL4000	UVL5600

Rapid cure	Main cure	UVL6001
UVL6400-0	UVL7000N	UVL9007
UVL3001RS	UVL3204RS	UVL3001RS
AM252X	AM403X	UVT-3002
05107Q2	UVT-3001	PL4000HD
UVT-3404-A2	PM421	H60C/15AC/072
