

UV Curing Lamps For UV Research Equipment

It is our understanding that Tec Lighting and UV Research are one in the same. They distribute UV curing lamps and offer a line of domestic and imported UV-coaters. Lamp nomenclature is identical and we assume the same equipment has been sold under both company names. They sell UV irradiators (lamp assemblies) under the trade-name Spectracure.

When you purchase a lamp from TCS Technologies, we are the manufacturer. Distributors may purchase from several sources perhaps some better than others. Their product may lack consistency in design and construction. Our lamps are reliable and backed by 32-years of lamp-making excellence.

Typical UV Research/Tec Lighting style lamps manufactured include:

HT-10080	HT-3250	HT-4350	HT-4280
HT-4280 GA	HT-5260	HT-5280	HT-5380
HT-6260	HT-6280	HT-7280	HT-9280
HT-9360	HT-9380	HT-1260	HT-1280
HT-1540	HT-2480	HT-2960	HT-2980
HT-1280-390	T55010	28400	32600
32400	38400	42400	6838A5C
21400	2140KURZ	6818A4C	6812A441
