

UV Curing Lamps For Van Dam Equipment

Best known for reliable, high speed cup printers, Van Dam Machine uses ultraviolet curing dryers in many of their printers. When it comes to replacement ultraviolet lamps, TCS Technologies offers an alternative to the OEM. Our lamps are directly interchangeable with Van Dam OEM product. They cure at the same rate, operate the same power but cost less.

Here is a partial list of Van Dam-style UV lamps we manufacture:

MB426	AM3227X	PM426	MB1163
PM1235	MB1235	PM411	6807A444
6806A443	6810A446	36-150
