

Replacement UV lamps for Vutek printers

If you are looking for replacement UV curing lamps that are 100% compatible with EFI Vutek products your search is over. TCS Technologies manufactures a complete line of replacement digital UV curing lamps for all EFI Vutek printers. For example, our GS series of lamps come complete with the custom OEM ceramic connector. They connect flawlessly, providing high UV output and predictable life.

With TCS Technologies, you are dealing direct with a UV lamp manufacturer based in Hackettstown, New Jersey. Bottom line, our lamps cure at the same rate but cost less than the OEM product.

We manufacture UV curing lamps for the following EFI Vutek Printers:
